### DETAILED ACTION

Receipt is acknowledged of the response filed 03/05/2009.

The following rejection is maintained in this action:

#### ***Double Patenting***

The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. A nonstatutory obviousness-type double patenting rejection is appropriate where the conflicting claims are not identical, but at least one examined application claim is not patentably distinct from the reference claim(s) because the examined application claim is either anticipated by, or would have been obvious over, the reference claim(s). See, e.g., *In re Berg*, 140 F.3d 1428, 46 USPQ2d 1226 (Fed. Cir. 1998); *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) or 1.321(d) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent either is shown to be commonly owned with this application, or claims an invention made as a result of activities undertaken within the scope of a joint research agreement.

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

Claims 14, 17-19,21-24, 27, 28,31, 34-37, 39-41 are provisionally rejected on the ground of nonstatutory obviousness-type double patenting as being unpatentable over claims 14-19, 21-24, 27-31, 34 of copending Application No. 12/021,546 (US'546).

Although the conflicting claims are not identical, they are not patentably distinct from

Art Unit: 1615

each other because US'546 claims a composition and drug delivery vehicle for inhibiting adhesions (claim 1) using delivery vehicles (claims 3 and 15) of Pemirolast (claim 2)..Therapeutic agents are set out in claim 6, Dosage of Pemirolast is found in claim 11. The vehicle may comprise a polymer selected from the group set out in claim 16. Carrier characteristics are set out in claims 17-19. As such, those of ordinary skill would expect similar therapeutic effects on adhesions given the claims of US'546. The instant claims would have been obvious to one of ordinary skill at the time of invention given the claims of US'546.

This is a provisional obviousness-type double patenting rejection because the conflicting claims have not in fact been patented.

### ***Response to Arguments***

Applicant's arguments filed 03/05/2009 have been fully considered but they are not persuasive.

Applicant correctly cited U.S.C 121, but also misses the phrase "If the other invention is made the subject of the divisional application...." Applicant has filed a divisional which not only includes the other subject matter, but the matter found in the elected invention of this application. As such, the rejection under obviousness-type double patenting over copending US Application No. 12/021,546 is therefore maintained.

***Conclusion***

**THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
